DEVELOPER

Final-year Information Technology student with hands-on experience building and deploying full-stack web applications using Next.js, PostgreSQL, and Docker. Experienced in cloud deployment, database design, and modern DevOps practices including containerization and CDN configuration. Seeking a Software Developer or Backend Developer position to build scalable systems and contribute to production software.

SKILLS

Technical Skills

- Languages: TypeScript, Python, C++
- Backend Development: Node.js, NestJS, FastAPI, Django
- Databases: PostgreSQL, MySQL, Microsoft SQL Server, MongoDB
- DevOps & Tools: Docker, Git, Linux
- Cloud & Infrastructure: Cloudflare, Railway, S3-compatible Object Storage
- Other: AI Model Integration, REST API Development

Soft skills: Collaborative teamwork, analytical thinking, and professional working proficiency in English.

PROFESSIONAL EXPERIENCE

Joblogic

Feb 2025 - Jul 2025

IT Associate Part-time

Developed and implemented a streamlined asset management process, coordinated employee onboarding by provisioning laptops, installing development tools, and ensuring secure configurations to enable day-one productivity, while proactively seeking guidance and discussing complex technical challenges with senior developers to strengthen my skills.

Achievement:

- Supported onboarding setup for multiple developers by configuring laptops and development environments.
- Improved asset tracking efficiency through a structured asset management process.

Industrial Equipment Product Website – thuylocmq.vn

Nov 2025 - Mar 2026

Full-Stack Developer

- Built and deployed a production-ready full-stack application using Next.js, PostgreSQL, Docker, and Railway.
- Implemented S3-compatible object storage for scalable product image storage.
- Configured Cloudflare CDN and DNS for optimized asset delivery and secure domain management.
- Designed database schema and backend API for product management.

Achievement: Delivered a fully deployed production system with modern DevOps practices including containerization and cloud deployment.
